Document Verification With Facial Comparison (DVFC)

Authenticate customers across the globe with W2's Document Verification with Facial Comparison (DVFC) solution and experience a frictionless, faster onboarding journey.

By implementing the DVFC services into your customer onboarding journey you can keep customers engaged in a smooth end to end process and verify their identity in real-time, whilst offering a superior customer experience.

Key Benefits

|		
Automatic, real time engine and responses.	Can verify over 6000 global documents.	Supported by mobile SDK's & API end points for web journeys.
DV & FC elements can be independently used for maximum flexibility.	Ability to add bespoke templates to the global document library.	Deter fraudsters by linking verified documents to users.

Complementary Services

Manual Document Verification | **Global eKYC** | **AML Services**

Example Journey

this example journey can be fully customised to represent your brand.

Use Cases

In situations where onboarding time and avoiding customer drop-offs is critical, this service can onboard customers in minutes.

If operating in countries where accessing data coverage is poor, this service can replace a traditional KYC check.

Give your customers a positive first impression of your company by providing an efficient and innovative onboarding experience.

Set custom match rate parameters on a scale of 1-100 depending on how much of an exact match you require to onboard.

Ready To Upgrade Your Onboarding?

Your pain points? We understand. This is why we do what we do, and can provide you with an experience like no other. Click below to speak with a sales representative.
